Service Offering

Simplicity

LEVeL Advisory was founded in 2009 by professionals from the banking, audit and investment funds sectors.

Our mission is to provide expert advice and solutions around the OLYMPIC Banking System that are practical to implement, delivered on time and within budget.

*Applying LEVeL's values
- Fast, Smart and Thorough -
we provide solutions to problems. Simple.*

With decades of experience gained throughout the lifecycle of banks, we partner your business from strategy design to implementation and execution.

Service Offer

*OLYMPIC Banking System
Implementation & Migration*

*IT Business Support around
OLYMPIC Banking System*

OLYMPIC-as-a-Service

Change & Project Management

***"Everything
should be made
as simple as
possible...
but not simpler"***

A. Einstein

OLYMPIC Banking System Implementation & Migration

- *Bridging business and IT*
- *Parameter setup specialists*
- *Feasibility and impact analysis*
- *Integrator of choice for OLYMPIC Banking System*

*LEVeL has extensive experience in the user-end specification and operational and technical implementation of the widely used Eri Bancaire **OLYMPIC Banking System**. We assist Banks in the deployment of individual modules or complete transaction cycle processing components and workflows.*

We speak the language of your business users and translate that in comprehensive specifications for your IT departments and system vendors. LEVeL manages your implementation projects and optimises your operational use of the OLYMPIC Banking System and other IT systems, including SWIFT MT and MX.

IT & Business Support around OLYMPIC Banking System

- *IT Operations Support*
- *Business Analyst role*
- *End-user training and operational assistance*
- *Delivery management and testing services*

LEVeL provides assistance in the day-to-day management of your OLYMPIC Banking System environment. We help your teams in controlling the IT processes around your core banking system, we analyse issues you may encounter in using the system optimally with the intent to improve the end-user satisfaction and we assist in the resolution of issues with parameter settings to meet your business requirements.

Moreover, we provide delivery management and testing services by installing, deploying and testing new deliveries. This can be during your System Integration Tests or Non-Regression Tests.

Our experienced Business Analysts provide training sessions to your end-users to tailor the OLYMPIC Banking System usage to your business processes.

"If you are failing to plan, you are planning to fail..."

T. Siddique

OLYMPIC-as-a-Service

- *Infrastructure services*
- *DRP and BCP Solutions*
- *OLYMPIC Release Management*
- *Software-as-a-Service*

In close cooperation with our PSF accredited technology partners and Eri Bancaire, we serve OLYMPIC Banking System users with outsourced Application Management Services (AMS) and Infrastructure Management Services (IMS).

Change and Project Management

LEVeL manages your OLYMPIC related projects. With our business and system knowledge we are ideally placed to coordinate your projects and to drive progress in the different project streams. Change management and project management go hand-in-hand in our approach as we guide you through the different milestones from kick-off to go-live, and beyond.

Housed in Tier IV datacenters in Luxembourg, we manage your OLYMPIC Banking System environment with a keen eye on state-of-the-art SLA driven service provision on an optimised IT infrastructure in our Shared Services Centre approach.

LEVeL assists your organisation in the transition to the S-a-a-S platform during a "build" phase and subsequently maintains your core banking system and satellite systems in the "run" mode.

"Vision is the art of seeing things, invisible to others"

J. Swift

The Team

- *Multi Lingual*
- *Experienced*
- *The right profile for each task*

LEVeL has a strong team of highly skilled, multi-lingual, multi-disciplined consultants who are deployed in teams that can be tailored to the client's individual needs.

Raf Van Leuven – Founder

Raf created LEVeL in 2009 and has a long experience in managerial roles in several Private Banks, Global Custodians and Clearing Institutions in Luxembourg and Belgium.

Raf holds a master degree in Economics and has been active on numerous migration and implementation projects of the OLYMPIC Banking System. He has a profound functional banking knowledge.

Julien Menu

Julien joined LEVeL in 2015 and provides an important technical knowledge of the OLYMPIC Banking System.

He has an in-depth knowledge of most Olympic programs and participated actively in core developments of the core banking system. Julien holds a degree in Information Technology and Mathematics.

LEVeL project teams have successfully assisted Private Banks, Retail Banks and Custodians with implementation, migration and transformation projects throughout Europe.

All of our consultants carry over 10 years experience with the OLYMPIC Banking System and can each be regarded as key references in the matter.

Bruno Ringlet

Bruno joined LEVeL in 2010 and has strong technical (AS400 and OLYMPIC) and business background.

He holds an industrial engineering degree and has been active on several migration and business enhancement projects.

Paul D'Art

Paul joined LEVeL in 2016 from Aqua Global Solutions, providing full integration with OLYMPIC when it comes to messaging and reconciliation services. He holds a civil engineering degree.

Paul has strong technical and interface knowledge surrounding OLYMPIC.

Winnny Keersmaekers

Winnny joined LEVeL in 2014 and combines long standing end-user knowledge with strong pedagogical skills. She provides the Project Management role during implementation and migration projects.

She holds a master degree in Biological sciences.

Christian Grigorellis

Christian joined LEVeL in 2013 and brings strong business and parameter knowledge of the OLYMPIC Banking System.

He holds a degree in Accounting, specialisation IT and participated actively in numerous projects. Christian is a credit and payments specialist

Robin Perrot

Robin joined LEVeL in 2013 and carries an extensive technical and business knowledge of the OLYMPIC Banking System.

He has an in-depth knowledge of the Portfolio Management and Client Relationship Management modules of OLYMPIC and holds a degree in Information Technology.

Jordan Ruar

Jordan joined LEVeL in 2015 and has strong knowledge of the iSeries / AS400 infrastructure on which runs OLYMPIC typically. He has long standing experience with OLYMPIC v.F and v.A installations.
